Introduction

About House of K.P

The house of K.P is a family run business. The Company's existence in the world of carpets derives inspiration from an inherent desire to help the weavers of our state, thereby uplifting their levels of living.

While also keeping in mind the challenge to fulfil the requirements of global customers for a cost effective, reliable, integrated first point source of high-end carpets.

A hand woven rug is more than a beautiful product, it's a real life story of an Artisan who's many generations have kept this rare art form alive.

JAIPUR

Rugs of Rajasthan are well known for their fine-quality, hand-knotting & natural fibers. The pink city Jaipur, is one of the main centers for this craft in Rajasthan. With the deep influence of the Mughal empire Jaipur emerged as one of the main hub for carpet weaving.

Carpets manufacturing first begun in Rajasthan when weavers from Afghanistan started to settle in the royal ateliers in the 17th century. Ever since, they have flourished here, with their high quality and versatile patterns finding their way into showrooms across the globe.

“The artist is a receptacle for emotions that come from all over the place: from the sky, from the earth, from the scrap of paper, from a passing shape, from a spider web.”

PABLO PICASSO
